

# Standing to the Side

It might make more sense than you initially realize

It is easier to tell a story when you are not caught between your clients

Photographers  
can get lovely  
candid pictures of  
the clients

The clients remain  
the center of the  
ceremony

The clients can  
connect

A Celebrant can  
always MOVE closer  
or between a couple  
if needed for  
logistics or support

## Standing to the side isn't just for weddings

Baby Welcoming's- let the parent(s) stand together and be seen by their family

Funerals/Memorials- standing to the side of the remains or cremains shows respect to the deceased and their loved ones

When doing group based ceremonies, the Celebrant on the side means all of the participants can see you and be seen.
